

**Butler County continues to see an increase week to week of Hepatitis A cases. As of Friday, May 11, 2018, Butler County's reported Hepatitis A cases totals 80. The majority of cases have been in people who use drugs and/or their close personal contacts. If you know someone who uses drugs or is a close personal contact of someone who uses drugs, please let them know he or she can get vaccinated at BCHD. Just tell the receptionists [#Franksentme!](#)**
